Dear Dr. Kommareddi,

Thank you so much for the knowledgeable support, expertise, and guidance you have provided Nashville General Hospital @ Meharry. As a direct result of our consultation with you we crafted a clear and detailed plan which was favorably cited by the JCAHO, to address our laboratory deficiencies.

We were impressed with your professionalism as well as your willingness and ability to teach and educate front line staff, leaders and physicians.

Your ongoing commitment to our success is demonstrated by your availability to consult with us whenever the need arises.

On a personal note, it has been a pleasure to work with you. I appreciated the opportunity to openly explore ideas and I have learned a great deal more about laboratory practices and regulatory issues which I believe will continue to benefit our hospital.

I wish you much personal and professional success and satisfaction in all your endeavors and look forward to your continued support.

Sincerely,

Marilyn Monk, M.Sc. (N), RN
